

Dear FCC,

K-Love has been of tremendous value to me, encouraging, uplifting, and motivating in my local community. If K-Love were replaced by LPFM broadcasters, it would be a serious blow to morale and people's emotional well-being. This public service is in the best interest of people because it provides a haven, a safe place that people can retreat to, take refuge in, be loved and accepted, and provide a shield from the sinister and cruel events that happen in the world.

Sincerely,

David Pugel
